

Outstanding Projects

Background

During the locum Clerk's tenure, several aged and outstanding 'external facing' projects have been mentioned. This report serves to list those 'external facing' projects, identify any others and to ask the Parish Council to rank in terms of priority or rather identify those that are not pressing and can wait.

The Parish Council is asked to bear in mind that there are several 'internal' projects which are currently taking up resource hours and in the immediate future there are tasks and projects that will take up time. Separately, there is also the prospect of the development of the community hub to factor in. A priority list of 'external facing' projects will help assist the incoming Clerk.

Outstanding Projects

- Defibrillator in the former telephone box
- Reinstatement of community amenities and re-siting of container on CISWO owned land
- New cemetery fencing
- Car park at the former sauna and squash centre
- Cemetery toppling testing and to determine the extent of an unsafe memorial process
