

Grant Applications

The Parish Council has a grant budget of £15,000 for the 2022-2023 financial year. As at 21 September 2022 £480 from the budget has been awarded in grant applications, leaving £14,520 remaining in the budget.

Five applications for funding have been received this month, and two further local entities have recently requested a grant application form to apply for funding.

Councillors should consider each grant request in its own right.

Four grant applications are to be reviewed now, with a further grant application to be considered in confidential as it is connected to a dispute.
